

## SENATOR GORMAN'S HOME LOOTED BY DOMESTICS

Alleged Plot to Furnish a  
Bridal Dwelling.

Senator-elect Arthur Pue Gorman has taken apartments at the Portland, which he will occupy with his family the latter part of next week. It is understood that Mrs. Gorman and her two unmarried daughters will be in Washington all winter. The Senator-elect will not take his seat until March 4 next.

Mr. Gorman's change of plan, it is stated, is due to the discovery of a systematic plan to rob the country home of the Gormans at Laurel, Md. of money, silverware, and jewelry, and to gradually furnish the home of one of the servants, who is engaged to be married, with fine apparel, jewelry, and plate, bedclothing, and other things from the splendidly furnished home of the Senator. Considerable progress in the plot had been made when the scheme was discovered through the disappearance of a large quantity of sugar from the pantry. The servants will not be prosecuted. The money and goods have been recovered.

None of the seven servants were suspected until a few days ago when one of them became greedy, and all but stripped the pantry. Investigation followed, and \$450 in money, twenty bed sheets, a lot of silverware, and some jewelry were found. It is stated, in the room of a woman servant. Quiet inquiry is said to have revealed the fact that several of the servants were in a co-operative scheme to equip the home of the prospective bride.

Laurel is a small town, and the discovery caused a sensation, and it is said that the attention of the authorities may be called to the matter, despite Senator Gorman's refusal to prosecute.

### BOYS CHARGED WITH STEALING.

Philetus Stewart, fifteen, and Harmon Porter and Charles Cleveland, each thirteen years of age, all colored, who compose a trio supposed to have had a hand in the theft of about two dozen bicycles in the past two months, were in the juvenile court, Judge Bundy presiding, yesterday. After a short hearing the case was continued until Monday.

The Grand Consolation for two-year-olds at seven furlongs is run at Benning today, and is the richest stake ever offered in Washington.

The Chevy Chase Steeplechase (gentlemen riders) is one of the features at Benning today.

## DIVE-KEEPERS SUSTAIN ANTI-CANTEEN PEOPLE

Working Hard to Prevent Re-establishment of Post Exchanges, Officers' Reports Say.

The advocates of the restoration of the canteen in the army are re-enforced strongly by the reports of staff officers in the Philippines made public today. These reports, all of which condemn the present arrangement as detrimental to the army, will be used by the Secretary of War in his argument to Congress this winter for the repeal of the prohibition feature. They say that the dive-keepers are as anxious as the anti-canteen advocates to prevent its repeal.

Gen. J. P. Sanger, inspector general of the Philippines, under instruction from the War Department, made a special study of the effects of the new law. He sums up his observations as follows:

"The social life of our soldiers in the Philippines, except in a few places, is absolutely without attraction, and as a result they consort more or less with the natives, and soon adopt some of their habits, with no benefit to the natives or to themselves. It is idle to speculate on this subject, or to say what he ought to be; the American soldier requires a healthful outlet for his superabundant energies.

"Until recently the post exchange, with its well regulated canteen, has been one of the instrumentalities through which this has been attempted, and if, as believed, it has exercised a wholesome influence on our soldiers at home, in the Philippine Islands it would no doubt prove to be a mental, moral and physical benefactor."

General Sanger then presents carefully prepared statistics showing that in 130 companies of the division between 90 and 100 per cent of the enlisted men used stimulants at the time of their enlistment. From this and other figures he deduces that "there is no fear that the sale of beer in the exchange would initiate or induce habits of intemperance; nor can the post exchange be maintained without it." He attributes the growing addiction of the soldiers to the drinking of wine, a vile native concoction, to its cheapness as compared with the price of beer as sold in dives. Wine can be had at from 10 to 13 cents (Mexican) a drink, whereas the average charge for a bottle of beer throughout the province is 50 cents (Mexican), and

like most beverages manufactured in the islands, is very much adulterated.

General Sanger also says that the habit of opium smoking among the soldiers has been reported.

Major L. Brecheim, chief surgeon of the Department of North Philippines, says that among the troops engaged solely in garrison duty intemperance is favored by the closing of the post exchange.

Capt. J. A. Cole, acting judge advocate under General J. Franklin Bell, comments thus:

"The abolishment of the canteen has cost lives and ruin of hundreds of soldiers, and it is a remarkable fact that the wretches who are fattening on the weakness of the soldier are just as glad of this abolishment as the honorable people who helped these villains to wipe out the safeguard of the soldiers."

### OLD FRIENDS MISS THE

#### LATE WILLIAM H. CROSBY

William H. Crosby, who died at his home, the Hotel Vendome, November 6, was for twenty-five years one of the proprietors of the National Hotel, and partner of the late William H. Tenney. As a hotel man he was ever genial, generous, and respected. He numbered his friends by the hundred. For some years he had been living at the Vendome, and was wont to care for the various needs of the guests. He was particularly gracious in his manner, and the stranger was made to feel that he was not an unaccompanied visitor to the Capital City. Mr. Crosby's white hair and pleasant face will be long missed by many an old-time guest.

Mr. Crosby was a thirty-third degree Mason, and a past grand master of the Odd Fellows. The funeral took place last Sunday.

### O'BRIEN SECURES DELAY IN EXTRADITION PROCEEDINGS

The hearing in the case of John Lawrence O'Brien in the United States court, of San Francisco, has been postponed until Monday. Detective Helan, who was sent to bring O'Brien back to this city on the charge of embezzling \$5,400 from Frank Hume, expected to secure an order for extradition yesterday, but the hearing went over, as stated, at the request of counsel for the prisoner.

## COMMISSION TO TEST SANITY OF MRS. HUGHES

Appointed by Justice Hall  
in New York.

Word was received here today that Justice Hall, in the supreme court in New York yesterday, appointed a commission to inquire into the sanity of Mrs. Louise B. Hughes, of this city, who was recently released from Dr. Kellogg's sanitarium at Riverside on a writ of habeas corpus. The commission was appointed on the petition of Attorney J. Shipman.

The members of the commission are Attorney James M. Gifford, Dr. Ralph Waldo and Ralph Troutman. Mrs. Hughes is more than eighty years of age, and has an income of \$9,000 from a trust estate left by her husband, David Michael Hughes.

Mrs. Hughes is at the Park Avenue Hotel. Her friends declare her sane. Edward G. Niles, a local attorney, is alleged to have been instrumental in having Mrs. Hughes committed to Dr. Kellogg's sanitarium.

### Stepped Against a Hot Stove.

A child of Mrs. George T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove, which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Kellar, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by Henry Evans, Wholesale and Retail, and all druggists.

## NUT CRACKER FACTORY STARTED IN GEORGETOWN

New Industry of Budesheim  
Manufacturing Co.

Another industry has been located in Georgetown, the Budesheim Manufacturing Company, which manufactures nut crackers. The plant is at 3233 Water Street, and is now running to its fullest capacity.

The firm expects to place 50,000 of the nut crackers on the market this winter. The nut cracker is the invention of Harry Budesheim. He and William A. Brodie, of this place, compose the firm. Several large orders have been placed in Philadelphia and New York, while negotiations are pending for the introduction of the cracker in other cities.

### CONTRACTOR YOUNG INJURED.

James Young, of N Street northwest, the contractor, while inspecting some work on the new warehouse of the Connecticut Pie Company, on O Street, near Thirty-second, Wednesday morning, accidentally fell a distance of about fifteen feet, sustaining painful injuries about the body. He is confined to his residence on N Street, near Thirty-fourth.

## EPIDEMIC OF THIEVING BY THE WINDOW ROUTE

Three Additional Cases Reported Today.

Three new cases of window prizing and screen cutting were reported to the detectives this morning, making a total of a dozen cases in the past few days.

The majority of thieves now at work in Washington seem to prefer the window route to all other methods of getting into houses.

The thieves have secured little booty. Detectives are investigating the cases. They say the crimes are the work of visiting talent.

Dr. Lewis A. Walker, 217 F Street northwest, reported that his office was opened last night and \$12 taken from the cash drawer in his desk.

R. O. Hatzman, corner of Tenth and F Streets northwest, found the money drawer in his store open this morning, but nothing was missing. Entrance was made through a window.

The side window of the drug store of W. C. Fields, corner of New Jersey Avenue and H Streets northwest, was found broken open this morning. Nothing was missing from the store.

**12 Minutes for Lunch.**  
That is the average time spent in a large city restaurant by three thousand lunchers. It takes three hours to digest a fresh egg soft boiled; three hours to digest a boiled apple dumpling; three hours to digest fresh roast beef. In fact, three hours is about the time required to digest the average twelve minute lunch. The object of the hasty lunch is to let the busy man get back to his office work. But when the brain is active, the stomach is inactive for lack of necessary blood. The natural consequence is indigestion, and indigestion opens the door to many diseases.

Indigestion is cured by the use of Dr. Pierce's Golden Medical Discovery, which cures diseases of the stomach and other organs of digestion and nutrition, and enables the perfect digestion and assimilation of food.

"It is with heartfelt gratitude that I send this testimonial which I wish you to publish with my name and address," writes Mr. Willis Seaman of Washingtonville, Orange Co., N. Y. "I had stomach trouble from childhood and suffered with it more or less as I grew up. At the age of 26 I was broken down with dyspepsia. My suffering was terrible. Could not eat without distress. Could only eat a few certain things and was not able to work half the time. Every thing I tried only gave me temporary relief. My wife finally persuaded me to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I took six bottles of the 'Golden Medical Discovery' and two vials of Dr. Pierce's Pleasant Pellets. I then felt so well that I stopped taking medicine. Several months have passed and I can do the hardest kind of work, can eat anything that is set before me and enjoy it. I am 27 years old and this is the first time I have ever been well."

Free. Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free on receipt of 21 one-cent stamps to pay expense of mailing only; or 31 stamps for cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.
